**JOINT UNANIMOUS RESOLUTION OF THE SUBCOMMITTEE ON  
AGRICULTURE, ENVIRONMENTAL CONSERVATION AND HOUSING**

March 30, 2007

On motion by Assemblyman Bill Magee, Chair of the Assembly Committee on Agriculture and seconded by Senator Catharine M. Young, Chair of the Senate Committee on Agriculture

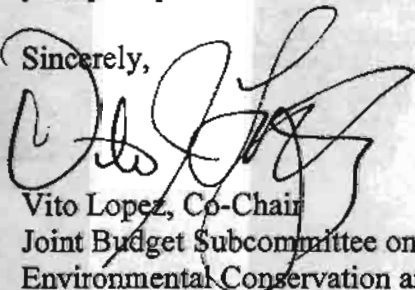

Members of the Joint Legislative General Conference Committee:

As members of the Joint Budget Subcommittee on Agriculture, Environmental Conservation and Housing, we urge you to identify an available resource to establish a *\$60 million Dairy Assistance Program* to provide direct and immediate relief to New York State's dairy farmers. Such funding would, as has been included in legislation advanced in both houses of the Legislature, provide an approximately 50-cent per hundredweight payment to the average farmer for milk produced during 2006. For a family farm milking 100 cows, this one-time payment would be approximately \$9,000.

While this issue was never formally before our Subcommittee for consideration, each of us recognizes the importance of New York's dairy industry, which provides literally billions of dollars of value to the economy of both Upstate and New York City. Joint legislative hearings held earlier this year confirmed beyond a doubt that these producers currently face the worst economic crisis of their lifetimes. In 2006, extremely low milk prices (well below prices received over 25 years ago), ruinous floods and high prices for fuel, feed, energy and fertilizer caused devastating – and in some cases irreversible – losses for dairy farms statewide.

A recent United States Department of Agriculture (USDA) Agricultural Resource Management Survey found New York State dairy earnings at a *negative* \$4.31 per hundredweight for 2006. That number does not account for farm labor and management costs; indeed, the average 100-cow milk operation lost over \$80,000 last year. Considering these facts, the Subcommittee feels strongly that the Legislature and Executive cannot, in good conscience, leave this issue unresolved as we work to enact a timely budget plan for New York State. Therefore we request your prompt attention to this very important matter.

Sincerely,

Vito Lopez, Co-Chair  
Joint Budget Subcommittee on Agriculture,  
Environmental Conservation and Housing
